9 am – 11 am
Finding Water

Formed in 2013, the mission of ACTI is to facilitate the implementation of innovative technology, tactics and techniques among transportation program delivery professionals **to ensure smart, efficient investment in Arizona's highway and transportation infrastructure.** In September, 2013, ACTI sent out a Call for Solicitation to industry partners asking for submittals of innovations that could be presented to the transportation community. ACTI received thirteen proposals and plans to host six presentations throughout 2014, listed at left

These presentations are open to both public and private sector transportation industry staff. Each presentation will feature a panel with representatives from the proposed innovation, plus other appropriate professional representatives.
