

Dear Members and Industry Partners:

The COVID-19 pandemic is taking its toll on construction businesses necessary for building and maintaining critical infrastructure such as that used to transport essential goods and services, deliver clean water and electricity, and protect our national security, among other things.

Tell Congress to take immediate action to:

1. Enact policies and programs that ensure all construction employers' cash flows so they can pay workers and maintain their essential operations;
2. Ensure public construction markets have immediate-term access to additional federal funds to build critical infrastructure; and
3. Lay the foundation for the long-term recovery of the industry and its markets through enacting multi-year public infrastructure investments.

Click the "Take Action" button below and simply submit the pre-written message as is to your members of Congress or customize it with personal information on how this issue impacts you and your employer.

Sincerely,

David M. Martin
AZAGC President
